Pune, Maharashtra

PROFESSIONAL SUMMARY

Motivated and detail-oriented Java Developer fresher with strong knowledge of Core Java, Spring Boot, Spring MVC Spring Data JPA, Spring Security, REST APIs, JWT authentication, and database management. Experienced in developing applications using Spring Boot and Oracle. Seeking an entry-level Java Developer opportunity to apply software development skills, build secure and scalable applications, and contribute effectively to a collaborative development team.

TECHNICAL SKILLS

Programming Languages: Java, HTML, CSS, JavaScript

Backend Technologies: Spring Core, Spring Boot, Spring MVC, Spring Data JPA, REST APIs, Microservices

Database: Oracle,SQL

Tools & Technologies: Git, GitHub, Maven, Postman, Swagger

DevOps & CI/CD: Docker (Basic), Jenkins (Basic), CI/CD (Basic) , Agile Methodology

Core Concepts: OOP, JDBC, Exception Handling, SDLC, Agile Methodology

Operating System: Windows

PROJECTS

Employee Management System

Technologies: Java, Spring Boot, Spring Data JPA, REST APIs, MySQL, Maven

- Developed a Employee Management System for managing employee information and organizational operations.
- Designed and implemented RESTful APIs using **Spring Boot** and **Spring Data JPA** for employee and management-related operations.
- Developed employee management functionality including employee registration, employee details, department management, and employee records.
- Implemented **leave management** features for submitting, updating, approving, and tracking employee leave requests.
- Developed **payroll management** functionality for maintaining employee salary and payroll-related information.
- Used **MySQL** for persistent storage and Spring Data JPA for database operations.
- Tested and validated REST APIs using **Postman** and handled application-level exceptions.
- Organized the application using layered architecture with controllers, services, repositories, entities, and DTOs.

GitHub Repository Health Analyzer

Technologies: Java, Spring Boot, Spring MVC, Spring Data JPA, MySQL, Swagger, Maven

- Developed a Spring Boot application to analyze GitHub repositories and evaluate repository health using activity, documentation, maintenance, and community-related metrics.
- Integrated the GitHub REST API to retrieve repository information and generate health scores, grades, and improvement recommendations.
- Implemented REST endpoints for repository analysis, analysis history, repository comparison, dashboard statistics, and health trends.
- Used Spring Data JPA and MySQL to persist repository analysis results and retrieve historical records.
- Configured Swagger/OpenAPI documentation to explore and test REST endpoints.

Actor Information Management System

Technologies: Java, Spring Boot, Spring MVC, Spring Data JPA, Oracle, Swagger, Postman

- Developed a RESTful CRUD application for managing actor information, including name, age, remuneration, and status.
- Designed APIs for adding, retrieving, updating, and deleting actor records.
- Used Spring Data JPA for ORM-based database operations and entity management.
- Integrated Oracle Database for persistent storage of actor information.
- Documented REST APIs using Swagger UI for interactive API testing.

EDUCATION

Nutan Maharashtra Institute of Engineering & Technology, Pune
Master of Computer Applications (MCA) | 2025 – 2027
CGPA: 8.35
Pune, Maharashtra

MGM's College of Computer Science & IT, Nanded
Bachelor of Computer Applications (BCA) | 2022 – 2025
CGPA: 8.50
Nanded, Maharashtra

CERTIFICATIONS

- **Programming with Java** — Infosys Springboard
- **ReactJS for Beginners** — Infosys Springboard
